### THE ALBARAKA BANKING GROUP (ABG)

Albaraka Banking Group B.S.C. is a Bahraini Joint Stock Company listed on **Bahrain and Dubai** Stock Exchanges and one of the leading international Islamic banks. ABG offers retail, corporate, investment banking and treasury services strictly in accordance with the principles of **Sharia**. The authorized capital of ABG is US \$ 1.5 billion, while the total equity amounts to about US \$ 1.5 billion. The Group has a wide geographical presence in the form of subsidiary banking units in **12 countries**, which in turn provide their services through more than **250** branches.

Despite the global financial and economic crisis, ABG announced an increase of **32**% in its operating income in the year 2008 over the year 2007 with corresponding amounts of US\$ 586 million and US \$ 444 million respectively. The net income before provisions and taxation was US \$ 314 million as compared to US \$ 215 million in 2007, recording an appreciable increase of **46**% over 2007 excluding the extraordinary gain made in previous year in respect of the Initial Public Offering (IPO) of the subsidiary in Turkey.

Even under the present global recessionary conditions and financial crisis being faced by world's leading banks, liquidity of ABG remained high and customer deposits grew by almost **10**% to reach **US \$ 9 billion** which reflects an increasing level of customer confidence and loyalty to the group. By these results, the group achieves one of its most important strategic objectives, which is to enhance shareholders' value.

### **AUDITORS' REPORT TO THE DIRECTORS**

We have audited the annexed balance sheet of ALBARAKA ISLAMIC BANK B.S.C. (c) - Pakistan Branches as at 31 December 2008 and the related profit and loss account, cash flow statement and statement of changes in equity, together with the notes forming part thereof (hereinafter referred to as the "financial statements") for the year then ended, in which are incorporated the unaudited certified returns from the branches except for four branches which have been audited by us and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the bank's management to establish and maintain a system of internal control and prepare and present the financial statements in conformity with approved accounting standards and the requirements of the Banking Companies Ordinance, 1962 (LVII of 1962) and the Companies Ordinance, 1984 (XLVII of 1984). Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the International Standards on Auditing as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of any material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion and after due verification, which in case of loans and advances covered more than sixty percent of total loans and advances of the bank, we report that:

- a) in our opinion, proper books of account have been kept by the ALBARAKA ISLAMIC BANK B.S.C. (c) Pakistan Branches as required by the Companies Ordinance, 1984 (XLVII of 1984) and the returns referred to above received from the branches have been found adequate for the purposes of our audit;
- b) in our opinion:
  - the balance sheet and profit and loss account together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962, and the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied;
  - ii) the expenditure incurred during the year was for the purpose of the branches' business; and
  - iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the branches and the transactions of the branches which have come to our notice have been within the powers of the branches:

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

- in our opinion and to the best of our information and according to the explanations given to us, the balance sheet, profit and loss account, cash flow statement and statement of changes in equity together with the notes forming part thereof conform with approved International Accounting Standards as applicable in Pakistan and give the information required by the Banking Companies Ordinance, 1962 (LVII of 1962), and the Companies Ordinance, 1984, in the manner so required and give a true and fair view of the state of the branches' affairs as at 31 December 2008 and its true balance of the loss, cash flows and changes in equity for the year then ended; and
- d) in our opinion Zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Branches and deposited in the Central Zakat Fund established under Section 7 of that Ordinance.

Without qualifying our opinion, we draw attention to Note 1.2 in the financial statements which states that the management of the Bank is in the process of converting the Bank into locally incorporated bank and hence intends to continue its operations through locally incorporated bank.

| Head office capital account                         | 19   | 2,420,129                   | 2,046,185  |
| Reserves  | .0   | -                           | -          |
| (Accumulated loss)/ Unremitted profit               |      | (19,912)                    | 400,348    |
| (   |      | 2,400,217                   | 2,446,533  |
| *(Deficit) on revaluation of assets                 | 20   | (34,436)                    | (1,780)    |
| ,   |      | 2,365,781                   | 2,444,753  |
| CONTINGENCIES AND COMMITMENTS                       | 21   | -                           | -          |

<sup>\*</sup> The above deficit on revaluation of assets include an impairment loss (net of tax) of Rs. 34.507 million in respect of mutual funds held under 'Available-for-sale' category of investments as allowed under BSD Circular No. 04 dated February 13, 2009 of the SBP. The said impairment loss has been determined on the basis of valuation of such mutual funds using the net asset value as of December 31, 2008. Had the impairment loss been charged to profit and loss account, the deficit on revaluation of assets - net of tax would have been lower by Rs. 34.507 million and loss for the year would have been higher by the similar amount (See note 20.1).

The annexed notes 1 to 41 form an integral part of these financial statements.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2008

#### 1. STATUS AND NATURE OF BUSINESS

- 1.1 Al-Baraka Islamic Bank B.S.C. (c) Pakistan Branches (the Bank), operates as a branch of a foreign bank incorporated and domiciled in Bahrain on February 21, 1984 and is a member of Al-Baraka Banking Group. The Bank commenced its operations in Pakistan in December 1991. The Pakistan branches operate as scheduled Islamic Bank under a license issued by the State Bank of Pakistan (SBP) and are principally engaged in business of banking as defined in the Banking Companies Ordinance, 1962. The registered office of the Bank is situated at 95-B Hali Road, Lahore and presently it operates through twenty nine (29) branches (2007: 18 branches) in Pakistan.
- 1.2 The management of the Bank is in the process of converting the Bank into locally incorporated bank and it expects to culminate this process by the end of August 2009. However, these financial statements have been prepared on going concern basis as the management intends to continue its operations through locally incorporated bank and amalgamate the Bank with proposed locally incorporated bank in accordance with the proposed scheme of merger on the basis of book values of its assets and liabilities on the date of amalgamation. Further, the bank is currently operating with capital of Rs. 2.40 billion (net of losses) as referred to in Note 19.2. However, subsequent to the merger into locally incorporated bank, the bank would require an increase in paid up capital (net of losses) upto Rs. 6 billion by 31 December 2009.

#### 2. BASIS OF PRESENTATION

- 2.1 These financial statements have been prepared in accordance with the requirements of State Bank of Pakistan (SBP) vide BSD Circular No. 4 dated February 17, 2006.
- 2.2 The Bank provides financing mainly through shariah compliant financial products. Except for Murabaha transactions (which are accounted for under the Islamic Financial Accounting Standard 1), the purchases, sales and rentals arising under these arrangements are not reflected in these financial statements as such but are restricted to the amount of facility actually utilised and the appropriate portion of rental / profit thereon. Income, if any, received which does not comply with the principles of Islamic Shariah is recognised as charity payable.

#### 3. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as are notified under the Companies Ordinance, 1984, the requirements of the Companies Ordinance, 1984, Banking Companies Ordinance, 1962 or directives issued by the Securities and Exchange Commission of Pakistan and the State Bank of Pakistan. Wherever the requirements of the Companies Ordinance, 1984, Banking Companies Ordinance, 1962 or directives issued by the Securities and Exchange Commission of Pakistan and the State Bank of Pakistan differ with the requirements of IFRS or IFAS, the requirements of the Companies Ordinance, 1984, Banking Companies Ordinance, 1962 or the requirements of the said directives shall prevail.

SBP as per BSD Circular No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement (IAS 39) and International Accounting Standard 40, Investment Property (IAS 40) for Banking companies till further instructions. Further, according to the notification of SECP dated April 28, 2008, the IFRS -7 "Financial Instruments: Disclosures" has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these financial statements. However, investments have been classified and valued in accordance with the requirement of various circulars issued by SBP.

- 4. STANDARDS, INTERPRETATIONS AND AMENDMENTS TO PUBLISHED APPROVED ACCOUNTING STANDARDS THAT ARE NOT YET EFFECTIVE:
- 4.1 The following revised standards and interpretations with respect to approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standards or interpretations.

Effective date (accounting

|          |  | herions                |
|----------|--|------------------------|
|          |  | beginning on or after) |
| IAS 1    | Presentation of Financial Statements (Revised)           | January 01, 2009       |
| IAS 23   | Borrowings Costs (Revised)                               | January 01, 2009       |
| IAS 27   | Consolidated and Separate Financial Statements (Revised) | January 01, 2009       |
| IFRS 3   | Business Combinations (Revised)                          | July 01, 2009          |
| IFRS 4   | Insurance Contracts                                      | January 01, 2009       |
| IFRS 8   | Operating segments                                       | January 01, 2009       |
| IFRIC 13 | Customer Loyalty Programs                                | July 01, 2008          |
| IFRIC 15 | Agreements for the Construction of Real Estate           | January 01, 2009       |
| IFRIC 16 | Hedges of a Net Investment in a Foreign Operation        | October 01, 2008       |
| IFRIC 17 | Distributions of Noncash Assets to owners                | <b>July 01, 2009</b>   |
| IFRIC 18 | Transfers of Assets from Customers                       | July 01, 2009          |
| IFAS 2   | ljarah   | January 01, 2009       |
|          |  |                        |

The Bank considers that the above standards and interpretations except for IFAS 2, are either not relevant or will have no material impact on its financial statements in the period of initial application other than to the extent of certain changes or enhancements in the presentation and disclosures in the financial statements to the extent that such presentation and disclosure requirements do not conflict with the format of financial statements prescribed by SBP for Banks.

IFAS 2 would affect the accounting for Ijarah financing contract undertaken by the Bank. The standard would be applicable prospectively to such contracts entered into on or after January 01, 2009 and requires that the assets financed under ijarah arrangements be recorded as fixed assets separate from the assets in the Bank's own use. The said assets will be carried at cost less depreciation and impairment, if any. The rentals from ijarah are to be recognised in the profit and loss account on a straight-line basis over the terms of the contract. Currently ijarah arrangements are accounted for by the Bank in accordance with the accounting policy disclosed in note 7.2.

In addition to the above, amendments to various accounting standards have also been issued by IASB which are generally effective for accounting periods beginning on or after January 01, 2009. The management is in the process of evaluating the impact of such amendments on the Bank's financial statements for the ensuing periods.

#### 5. BASIS OF MEASUREMENT

Standard or interpretation

These financial statements are prepared on the historical cost convention except for quoted investments which are stated on a marked to market basis, commitments in respect of forward exchange contracts which are carried at fair value and certain staff retirement benefits being carried at present value.

#### 6. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with approved accounting standards and statutory requirements require the use of critical accounting estimates. It also requires management to exercise its judgements in the process of applying accounting policies. The areas involving a higher degree of judgement or complexity or areas where assumptions and estimates are significant to the financial statements are disclosed below:

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

#### 6.1 Investments

In accordance with BSD Circular No. 10, 11 and 14 dated July 13, 2004, August 04, 2004 and September 24, 2004 respectively, issued by SBP, the Bank classifies its investment portfolio into "held-to-maturity", "held-for-trading" and "available-for-sale" securities using the management's judgements. In making judgements regarding "held-to-maturity" the Bank evaluates its intention and ability to hold such investments to maturity. Investments made by the bank which it intends to hold for a period of less than 90 days is classified as "held-for-trading". Investments not classified in the above categories are classified as "available-for-sale".

#### 6.2 Impairment of equity investments

The Bank determines that available-for-sale or held-for-trading equity investments are impaired when there has been a significant or prolonged decline in the fair value below its cost. This determination of what is significant or prolonged requires judgement. In making this judgement, the Bank evaluates among other factors, the normal volatility in unit prices. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance, changes in technology and operational and financing cash flows.

#### 6.3 Income taxes

In making the estimates for income taxes payable by the Bank, the management looks at the current income tax law and the decisions of appellate authorities on certain issues in the past. There are various matters where Bank's view differs with the view taken by the income tax department and such amounts are shown as contingent liability.

#### 6.4 Defined benefit plan

The cost of the defined benefit gratuity plan is determined using actuarial valuation. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, if any, future salary increases and mortality rates. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

#### 6.5 Operating fixed assets

Estimates with respect to residual values, depreciable lives and pattern of flow of economic benefits are based on the analysis by the management. Further, the Bank reviews the value of the assets for possible impairment on an annual basis. Any change in the estimates in the future might affect the carrying amount of respective items of operating fixed assets, with a corresponding effect on the depreciation charge and impairment.

#### 6.6 Provision against non-performing financings

Apart from the provision determined on the basis of time-based criteria given in Prudential Regulations, the management also applies the subjective criteria of classification and accordingly the classification of financings is downgraded on the basis of credit worthiness of the borrower, its cash flows, operations in account and adequacy of security in order to ensure accurate measurement of the provision.

#### 7. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 7.1 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, balances with treasury banks and balances with other banks.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

#### 7.2 Financings

Financings are financial products originated by the Bank and principally comprise of murabaha, ijarah, islamic export refinance and musharaka financing. These are stated at gross receivable net of general and specific provisions.

Murabaha to the purchase orderer is a sale transaction wherein the first party (the Bank) sells to the client/customer a Sharia compliant assets / goods for cost plus a pre-agreed profit. In principle on the basis of an undertaking (Promise-to-Purchase) from the client (the purchase orderer), the Bank purchases the assets / goods subject of the Murabaha from a third party and takes the possession thereof, however the Bank can appoint the client as its agent to purchase the assets / goods on its behalf. Thereafter, it sells it to the client at cost plus the profit agreed upon in the promise.

Ijarah is a contract in which the Bank buys and rents a productive asset to a person short of funds and in need of that asset.

Diminishing Musharaka represents an asset in joint ownership whereby a partner promises to buy the equity share of the other partner until the title to the equity is totally transferred to him. The partner using the asset pays the proportionate rental of such asset to the other partner (the Bank).

Musharaka / Modaraba are different types of partnerships in business with distribution of profit in agreed ratio and distribution of loss in the ratio of capital invested.

Provision for non-performing financings is determined in line with the Prudential Regulations issued by the SBP and where such provision is considered necessary, the same is charged to profit and loss account.

Financings are written off, when there are no realistic prospects of recoveries.

The Bank has created a general provision on consumer finance in order to comply with the requirements of the Prudential Regulations for Consumer Finance issued by SBP. These require that the Bank should maintain a general provision at an amount equal to 1.5% of the fully secured portfolio and 5% of the unsecured portfolio to protect the Bank from any risks associated with the cyclic nature of this business.

#### 7.3 Investments

The management determines the appropriate classification of its investments at the time of purchase and classifies these investments as held for trading, available for sale or held to maturity. These are initially measured at cost.

Held for trading

These are securities which are either acquired for generating profit from short term fluctuations in market prices or dealer's margin or are securities included in a portfolio in which a pattern of short term profit taking exists.

#### Held to maturity

These are securities with fixed or determinable payments and fixed maturity that the Bank has the positive intent and ability to hold to maturity.

#### Available for sale

These are investments that do not fall under the held for trading or held to maturity categories.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

In accordance with the requirements of the SBP, quoted securities other than those classified as held to maturity and investments in subsidiaries and associates, if any, are stated at market value. Investments held to maturity are measured at amortized cost. Provision is made for any impairment in value.

Surplus / (deficit) arising on revaluation of the Bank's held for trading investment portfolio is taken to the profit and loss account. The surplus / (deficit) arising on revaluation of quoted securities classified as available for sale is kept in "Surplus / (Deficit) on Revaluation of Securities account" and is shown in the balance sheet below equity. The surplus / (deficit) arising on these securities is taken to the profit and loss account when actually realized upon disposal.

Provision for diminution in the value of securities (except debentures, sukuks, participation term certificates and term finance certificates) is made after considering impairment, if any, in their value.

Profit and loss on sale of investments is recognized in the period of sale.

#### 7.4 Fixed assets and depreciation

#### **Tangible**

Fixed assets are stated at cost less accumulated depreciation and impairment losses, if any. Depreciation is charged over the estimated useful lives of the assets at the rates stated in note 12.1 using the straight-line method.

Normal repairs and maintenance are charged to the profit and loss account as and when incurred. Major renewals and improvements are capitalized.

Gains or losses on disposal of fixed assets are included in profit and loss account.

Residual value, useful life and depreciation method are reviewed and adjusted, if appropriate, at each financial year end.

Capital work in progress is stated at cost.

#### Change in accounting estimate

Until the previous years, the Bank used to charge full year depreciation on additions made before June 30, while half year's depreciation on assets acquired thereafter, and similarly no depreciation was charged in respect of disposals made before June 30, while half year's depreciation was charged on assets disposed off thereafter. Pursuant to requirement of IAS- 16" Property, plant and equipment", the Company has changed its policy for charging depreciation. Under the new treatment, depreciation charge commences from the month in which asset is available for use and continues until the month of disposal.

The change has been accounted for as a change in accounting estimate whereby current and future periods are corrected. Had there been no change in accounting estimate, the depreciation charge for the year and loss before tax would have been higher by Rs. 2.495 million while carrying value of fixed assets would have been lower by the same amount.

#### Intangible

Intangible assets are carried at cost less accumulated amortization and impairment losses, if any. The cost of the intangible assets is amortized over the useful lives of the related assets at the rate stated in note 12.2 using the straight-line method.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

#### 7.5 Impairment of assets

The Bank assesses at each balance sheet date, whether there is any indication that an asset may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess, whether they are recorded in excess of their recoverable amounts. Where carrying values exceed the estimated recoverable amounts, assets are written down to their recoverable amounts.

#### 7.6 Taxation

#### Current

Provision for current taxation is based on taxable income at the current rates of taxation after taking into account tax credits and rebates available, if any.

#### Deferred

Deferred tax is provided, using the balance sheet liability method, on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences. A deferred tax asset is recognized for all deductible temporary differences and unused tax losses to the extent that where it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax asset is reduced to the extent that it is no longer probable that related tax benefits will be realized.

Deferred tax liabilities are measured at the tax rates that are expected to apply to the period when the liability is settled, based on the tax rates and tax laws that have been enacted or subsequently enacted at the balance sheet date.

#### 7.7 Staff retirement benefits

#### **Defined Contribution Plan**

The Bank operates an approved provident fund scheme for all employees eligible under the scheme. Both, the Bank and the employees, make equal monthly contributions at the rate of 10 percent of basic salary to the fund.

#### **Defined Benefit Plan**

The Bank operates an approved funded gratuity scheme for the employees eligible under the scheme. Contribution to the fund is made based on actuarial recommendations. Benefits under the gratuity scheme are payable upon attainment of normal retirement age, which is 60 years or earlier cessation of services due to death or resignation. The benefit is equal to one month last drawn gross salary for each completed year of service up to ten years and 1.5 times of one month last drawn gross salary for each completed year of service over ten years of service. Maximum benefits under the scheme are payable for twenty years.

Actuarial gains or losses in excess of 10 percent of the present value of the defined benefit obligation or 10 percent of the fair value of the plan assets, whichever is higher, at the end of the previous reporting year are recognized over the average expected remaining working lives of the employees participating in the scheme.

#### **Compensated absences**

The Bank provides compensated absence benefit to all its regular employees as per service rules whereby, regular employees are entitled to 26 days privileged leaves for each completed year of service. Unutilized privileged leaves are accumulated up to the maximum of 60 days. These are encashed at the time of retirement/resignation by the employee on the basis of last drawn gross salary.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

#### 7.8 Revenue recognition

Income on murabaha is accounted for on culmination of murabaha transaction. However, profit not due for payment in the current year is deferred by accounting for unearned murabaha income with a corresponding credit to deferred murabaha income which is recorded as a liability. The same is then recognised as revenue on a time proportionate basis.

Provisional profit of Musharaka/Modaraba financing is recognised on accrual basis. Actual profit/loss on Musharaka and Modaraba financing is adjusted for declaration of profit/loss by musharaka partner/ modarib or at liquidation of Musharaka/Modaraba.

Mark-up/return on other financings and investments is recognized on an accrual basis except in case of non-performing financings, which warrant carry forward in compliance with prudential regulations issued by SBP.

The Bank follows the finance method in recognizing income on ijarah contracts. Under this method the unearned income i.e. the excess of aggregate ijarah rentals over the cost of the assets under ijarah facility is deferred and then amortized over the term of ijarah, so as to produce a constant rate of return on net investment in the ijarah. Ijarah processing fee is recognized on receipt basis.

Commission and fees are recognized as income at the time of affecting the transaction to which they relate, except for commission on letters of guarantee, which is accounted for on time proportionate basis if the amount exceeds equivalent to Pak Rs. 100.000.

Dividend income is recognized when the right to receive is established.

#### 7.9 Foreign currency transactions

Foreign currency transactions are recorded at rates in effect at the date of transaction whereas foreign currency balances are translated into rupees at the rates of exchange approximating to those ruling at the balance sheet date. All forward foreign exchange contracts are revalued using forward exchange rates applicable to their respective remaining maturities. Exchange gains and losses are included in profit and loss account.

#### 7.10 Head Office Expenses

During the year, the Bank has formulated a policy to recognise head office expenses in the financial statements. Such expenses have been charged on the basis of advice of its head office. Earlier, the Bank had practice to claim such expenses only in its income tax return.

#### 7.11 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in balance sheet, when there is a legally enforceable right to set off the recognized amount and the Bank intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

#### 7.12 Provision

Provisions are recognised when the Bank has a legal or constructive obligation as a result of past events, it is probable that an out flow of resources will be required to settle the obligation and reliable estimate of the amount can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect current best estimate.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

#### 7.13 Financial Instruments

All the financial asset and financial liabilities are recognized at the time when the Bank becomes a party to the contractual provisions of the instrument. Any gain or loss on derecognition of the financial asset and financial liabilities is taken to income currently.

#### 7.14 Inventories

Murabaha transaction are entered into on customer order basis, therefore, in normal circumstances there is no inventory However, if any, inventory remains unsold by the Bank at period end will be measured at lower of cost and net realisable value. Cost is determined on first in first out basis.

#### 7.15 Related party transactions

The Bank enters into transactions with major shareholders, directors, senior management and their related concerns in the ordinary course of business at prices and rates of return determined using approved methods.

#### 7.16 Segment reporting

Gross income on corporate finance consists of Sukuks. Expenses related to segment are based on weighted average cost of funds.

Gross income from trading and sales consists of profits / losses on investments held for trading purposes measured on mark-to market basis, profit / loss earned on realisation of investments classified as available for sale, net of funding cost, plus dividend income.

Gross income from retail banking consists of net return on financings to retail customers plus fees related to traditional retail services. Net return on retail banking is based on the profit earned on its financings to retail customers less the weighted average cost of funds including profit distributed against deposits and the balance due to financial institutions.

Gross income from commercial banking consists of net return on financings to corporate, interbank and sovereign customers, plus fees related to traditional commercial banking services including commitments, guarantees, bills of exchange, net income (e.g. from coupons and dividends) on securities held in the banking book. The calculation of net return is based on profit earned on financing to corporate, interbank and sovereign customers less the weighted average cost of funds.

Payment and settlement consists of fees to cover provision of payment / settlement facilities for counterparties.

#### 7.17 Trade date accounting

All "regular way" purchases of financial assets are recognized on the trade date i.e. the date the bank commits to purchase the assets. All regular way sales of financial assets are recognized on the trade date i.e. the date the bank commits to sell the assets. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

11.4.2 The SBP vide BSD Circular No. 02 dated January 02, 2009 amended Prudential Regulations in respect of provisioning against non-performing advances. The revised regulations that are effective from December 31, 2008, allow the benefit of 30 percent of Forced Sale Value (FSV) of pledged stocks and mortgaged commercial and residential property held as collateral by the Bank in determining the amount of provision against non-performing advances. Had there been no such relaxation from SBP, the provision would have been higher by Rs. 82.816 million. However, the additional impact on profit due to the benefit of FSV is not available for remittance of profit to the Head Office.

| 3.                      | Deposit of unencumbered approved securities   | (9.1.2) | 750,000                           | 750,000                         |
|                         |   | (19.2)  | 2,420,129                         | 2.046,185                       |

- **19.1** This represents an amount of US dollar 21.108(2007: US dollar 21.108) million deposited with the State Bank of Pakistan in compliance with sub section (3) of section 13 of the Banking Companies Ordinance, 1962.
- 19.2 In accordance with the requirements of BSD Circular no. 6 dated Oct 28, 2005 and BSD Circular no. 19 dated September 5, 2008, the Bank was required to increase Head Office capital to Rs. 5 billion by December 31, 2008. However, the Bank had been granted specific exemption in this regard from State Bank of Pakistan (SBP) vide its letter no. BSD/SU-1/608/3595/2007 dated 24 December 2007 due to the fact that the capital of Bank's Head Office in Bahrain amounts to US \$ 100 million and Capital adequacy ratio of above 9% is maintained at Head office level. This relaxation would no more be applicable if the Pakistan branches are converted into a locally incorporated bank and in this case, the locally incorporated bank would require an increase in paid up capital (net of losses) upto Rs. 6 billion by 31 December 2009.
- **19.3** The Bank maintains an actively managed capital base to cover risks inherent in the business. The adequacy of the Bank's capital is monitored using, among other measures, the Prudential Regulations issued by the SBP.
- The primary objectives of the Bank's capital management are to ensure the Bank complies with externally imposed capital requirements and that the Bank maintains strong credit ratings and healthy capital ratios in order to support its business.
- 19.5 The Bank manages its capital structure and make adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Bank may adjust the amount of remittance of profit. No changes were made in the objectives, policies and processes from previous years.

|     | Meezan Islamic Income Fund  | (38,262)       | 901<br>(2,738) |  |
|     | Less : related deferred tax                                       | 3,826          | 958            |  |
|     | Net Deficit   | (34,436)       | (1,780)        |  |

20.1 During the year, the stock exchange introduced 'floor mechanism' in respect of prices of equity securities based on the closing price as prevailing on August 27, 2008. Under the "floor mechanism", the individual security price of equity securities could vary within normal circuit breaker limit, but not below the floor price level. The mechanism was effective from August 28, 2008 and remained in place until December 15, 2008. During this period trading of securities effectively remained suspended on the stock exchanges. The trading resumed on December 15, 2008, however, the trading volumes upto December 31, 2008 were significantly low as compared to the volumes before the institution of floor mechanism. However, pursuant to the BSD Circular Letter No. 2 dated January 27, 2009 issued by the SBP, the equity securities held by the Bank have been valued at the prices quoted on the stock exchanges as of December 31, 2008 and the mutual fund units has been valued on the basis of the net asset values as of that date.

Furthermore, pursuant to the BSD Circular No. 4 dated February 13, 2009 of the SBP, the impairment loss amounting to Rs. 38.341 million and the related deferred tax impact of Rs. 3.834 million resulting from the valuation of mutual funds held under 'Available-for-sale' category of investments as of December 31, 2008 has not been recognized in the profit and loss account and have been taken to 'Deficit on revaluation of asset' account as shown on the balance sheet. The said impairment loss is required to be taken to the profit and loss account in the year 2009 on quarterly basis after adjustment for the effects of price movements in that year. However, for the purposes of distribution of profit in form of dividend, the impairment loss as referred above shall be treated as a charge to the profit and loss for the year.

The recognition of impairment loss in accordance with the requirement of accounting standards would have had the following effect on these financial statements.

|   | 2000           |
|---|----------------|
| Note  | Rupees in '000 |
| Increase in provision of diminution in the value of investments | 38,341         |
| Decrease in tax charge for the year                             | 3,834          |
| Increase in loss for the year                                   | 34,507         |
| Decrease in earning per share (EPS) (30)                        | -              |

#### 21.4 Other contingencies

This represent additional income tax liability amounting to Rs. 85.844 million which has not been acknowledged by the Bank. The Bank has filed appeals before CIT (Appeals) and Income Tax Tribunal against the orders in respect of tax years 2003 to 2007. Moreover, the Income Tax Department has also filed appeals before IncomeTax Tribunal against the orders in respect of assessment years 2001-2002 and 2002-2003 issued by CIT (Appeals). Appeals filed by the Bank and the Income Tax Department are pending for decision. Management of the Bank has evaluated, after consulting their income tax advisor, that the appeals are likely to be decided in favor of the Bank and, hence no provision has been made for the same in these financial statements.

#### 21.5 Commitments in respect of forward exchange contracts

| Purchase | 3,631,384 | 160,384 |
|----------|-----------|---------|
| Sale     | 1,044,415 | 866,072 |

The bank utilizes foreign exchange instruments to meet the needs of its customers and generates trading revenues as part of its asset and liability management to hedge its own exposure to currency risk. At the year end, all foreign exchange contracts have a remaining maturity of less than one year.

#### 21.6 Other Commitments

The bank makes commitments to extend credit in the normal course of its business but these being revocable commitments do not attract any significant penalty or expense if the facility is unilaterally withdrawn.

Commitment against capital expenditure amounts to Rs.45.166 million (2007: Rs. 18.911 million).

#### 39. CAPITAL-ASSESSMENT AND ADEQUACY BASEL II SPECIFIC

#### 39.1 Scope of applications

Al-Baraka Islamic Bank B.S.C. (C) - Pakistan Branches (the Bank), operates as a branch of a foreign bank incorporated and domiciled in Bahrain on February 21, 1984 and is a member of Al-Baraka Banking Group. The Bank commenced its operations in Pakistan in December 1991. The Pakistan branches operate as scheduled Islamic Bank under a license issued by the State Bank of Pakistan (SBP) and are principally engaged in business of banking as defined in the Banking Companies Ordinance, 1962.

Vide SBP's BSD circular 1 dated January 1, 2008, Basel II is applicable on the banks w.e.f. January 1, 2008 and accordingly, Basel II related disclosures as required by BSD 4 dated February 17, 2006 have been given in these financial statements.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

#### 39.2 Capital structure

The Bank's objectives when managing capital, which is a broader concept than the 'equity' on the face of balance sheets, are:

- To comply with the capital requirements set by State Bank of Pakistan;
- To safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

Banks regulatory capital is divided into three tiers as follows:

#### Tier I Capital

This includes paid up capital (presented as Head Office Capital Account being branches of foreign bank), net un-appropriated / remitted profits, after deductions for deficit on revaluation of available for sale investments.

#### Tier II Capital

This includes general provisions for loan losses (up to a maximum of 1.25 % of risk weighted assets), and equity investments (up to a maximum of 45% of the balance in the related revaluation reserves).

#### Tier III Capital

Tier III Capital has also been prescribed by the SBP for managing market risk; however the Bank does not have any Tier III capital as of December 31, 2008.

The risk-weighted assets are measured by means of a hierarchy of five risk weights classified according to the nature of (and reflecting an estimate of credit, market and other risks associated with) each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off-balance sheet exposure, with some adjustments to reflect the more contingent nature of the potential losses.

The required capital is achieved by the Bank through:

- (a) Adequate level of Paid up Capital (through head office)
- b) Ensuring better recovery management; and
- c) Maintain acceptable profit margins.

As discussed in Note 19, the bank has been granted specific exemption from increasing the capital base upto Rs. 5 billion.

The table below summarises the composition of regulatory capital and the ratio of the Bank for the year ended 31 December 2008:

|  | <b>2008</b> Rupees in "000" | (Un-audited)<br>2007 |
|--|-----------------------------|----------------------|
| 1 Tier I Capital   |                             |                      |

#### 39.2 Capital adequacy

The primary objectives of the Bank's capital management are to ensure that the Bank complies with externally imposed capital requirements and that the Bank maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholders'.

The Bank manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Bank may adjust the amount of profit remittance to Head Office. No changes were made in the objectives, policies and processes from the previous years.

Assessment of the capital requirement of the Bank is carried out through a comprehensive projection of future businesses that takes cognizance of the strategic intent of the Bank, profitability of particular businesses and opportunities for growth. The proper mapping of credit, operational and market risks to this projected business growth enables assignment of capital that not only adequately covers the minimum regulatory capital requirement but also provides headroom for growth. The calibration of risk to business is enabled by a strong risk culture in the Bank aided by effective, technology based risk management systems.

The Bank calculates capital adequacy ratio for its credit risk, market risk and operational risk based upon requirements under Basel II and as per guidelines issued by the State Bank of Pakistan from time to time in this regard.

Major credit risk in respect of on and off-balance sheet exposures are mainly claims on banks, corporates, retail customers, residential mortgages, and Sukuk (Held to Maturity). Market risk exposures are in equity and foreign exchange positions. The Bank's potential risk exposures shall remain in these exposure types.

Sensitivity and stress testing of the Bank under different risk factors namely yield rate, forced sale value of collateral, non-performing financings and foreign exchange rate depicts that the Bank's capital adequacy ratio is within the regulatory requirements.

The Bank's sponsors are well reputed in abroad. The Bank has never faced in the past any difficulty in raising capital whenever it required. The Bank's economic capital requirement assessment based on economic capital model is same as determined by the Bank's management as it has taken into account all factors which are required to be considered in an economic model.

A summary of the Bank's capital requirement for credit, market and operational risk and the capital adequacy ratio as on 31st December 2008 is presented below:

### 40. RISK MANAGEMENT

The due identification, measurement and mitigation of all risks inherent in the Bank's business processes is essential for the continuity and profitability of its operations. Cognizant of this fact, the management has taken comprehensive measures to establish a well-structured and meaningful risk management process within the organization. In compliance with State Bank of Pakistan guidelines, a comprehensive Risk Management Policy is in place duly approved by the Board of Directors. This document covers all facets of risks including credit, market, liquidity, operational and country risks, and outlines policies for their prudent management and mitigation.

In addition, a dedicated Risk Management Department is in place, independent of the business units, to perform all tasks necessary to identify, monitor and mitigate the risks arising from various activities, in line with the approved Policy. Periodic risk reviews are prepared to monitor portfolio concentrations, compliance with risk limits, and identification of any risk related issues which are subsequently discussed and resolved by the Risk Management Committee. Furthermore, quarterly stress tests are also conducted to assess the resilience of the portfolios under extreme market conditions.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

#### 40.1 Credit Risk

Credit risk is the potential that a borrower or counterparty will fail to meet its obligations in accordance with agreed terms and conditions. The credit risk management process in the Bank encompasses the assessment of risk both at the portfolio as well as at the transaction level. Limits have been set relating to group and industry to monitor portfolio concentrations and to encourage diversification. New approvals and/or renewals are monitored on a transaction level to ensure compliance with risk management policies and procedures.

A well-defined Credit Policy, duly approved by the Board of Directors, explicitly spells out various components of the credit granting process, including appraisal, sanctioning and review procedures, in order to instill prudence in all financing activities. Past due accounts are treated in line with the State Bank of Pakistan rules and regulations. However, periodic Watch Lists are prepared by the Credit Administration Department to proactively monitor accounts with early warning indicators .

A key tool being used by the bank in its credit risk management process is the internal risk rating of all its exposures. The newly refurbished rating framework has been designed to conform to the requirements of advanced measurement approaches under the Basel II Capital Accord, and is in line with the State Bank of Pakistan's guidelines on internal rating systems. The framework has been bifurcated into Customer Rating and Facility Rating to separately capture the risks pertaining to borrowing entities and specific transactions. The internal rating exercise provides invaluable assistance in the decision-making process by evaluating the risk profile of exposures before approval. In addition, it also helps in gauging the overall risk profile of the entire portfolio.

In order to monitor the credit exposure taken by the Bank in various economic segments, sectoral limits are set and approved by the Board of Directors in accordance with the nature and performance of each sector and Bank's own risk appetite. Adherence to these limits is assessed on a regular basis to ensure that the credit portfolio remains well diversified. Further diversification is achieved with the initiation of Consumer Finance, which serves to spread the risks over a large number of customers.

Various credit mitigants are used to protect against potential credit losses. Great care is taken to ensure that all legal and operational requirements are in place to allow smooth liquidation/processing in case of a default. The impact of these collaterals is a substantial reduction in the overall credit risk exposure of the Bank.

|  | 2008<br>Ruped | 2007<br>es in '000 |
|--|---------------|--------------------|
| Maximum amount under credit risk exposure -without taking into account collaterals | 20,781,119    | 18,493,538         |
| Maximum amount under credit risk exposure - taking into account collaterals        | 5,503,309     | 5,057,989          |

#### 40.1.1.6 Credit Risk-General Disclosures Basel II Specific

The Bank is operating under standardised approach for credit risk under Basel II. As such risk weights for the credit risk related assets (on-balance sheet and off-balance sheet-market & non market related exposures) are assigned on the basis of standardised approach. The Bank is committed to further strengthen its risk management framework that shall enable the Bank to move ahead for adopting Foundation IRB approach of Basel II; meanwhile none of our assets class is subject to the foundation IRB or advanced IRB approaches.

# 40.1.1.7 Credit Risk: Disclosures for portfolio subject to the Standardised Approach & supervisory risk weights in the IRB Approach-Basel II Specific:

The Simplified Standardized Approach is used for calculating capital charge for credit risk. Under this Approach, risk weight to claims on sovereigns (denominated in FCY), public sector entities, and banks are assigned on the basis of country scores (assigned to the country of origin of these claims) of Export Credit Agencies (ECA) participating in the "Arrangement of Officially Supported Export Credits". These scores are available from the Oraganization for Economic Cooperation and Development (OECD).

#### Types of exposures and ECAI's used is as follows:

| Exposures       | JCR-VIS           | PACRA            | OTHER      |  |
|-----------------|-------------------|------------------|------------|--|

#### 40.1.1.8 Credit Risk: Disclosures for portfolio subject to IRB Approach - Basel II Specific

Not applicable as the Bank has not yet adopted IRB approach.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

### 40.1.1.9 Credit Risk: Disclosures with respect to Credit Risk Mitigation for Standardised and IRB Approaches-Basel II Specific:

Bank obtains capital relief for its both on-balance and off-balance sheet- non-market related exposures by using simple approach for credit risk mitigation (CRM). Off-balance sheet items under the simplified standardised approach are converted into credit exposure equivalents through the use of credit conversion factors. The main type of collateral taken by the bank are:

- Cash and certificates of deposits
- Guarantees
- Pledge on imported good / title to goods
- Mortgage over property
- Hypothecation of current and fixed assets

However, under the standardised approach, the eligible collaterals used for credit risk mitigation under the simple approach for calculating credit risk capital charge are security deposits, cash margins, Government securities and saving accounts.

Valuation and management of eligible collaterals for CRM is being done in line with the conditions laid down by SBP. Since eligible collaterals for CRM purposes are all in the form of cash collaterals, they generally do not pose risk to the Bank in terms of change in their valuation due to changes in the market condition.

The credit equivalent amount of an off-balance sheet market related foreign exchange contracts are determined by using the current exposure (mark to market) method.

The benefit of CRM against its claims on corporate and retail portfolio under the standardised approach for on-balance sheet exposures is as follows:

Claims on coporate portfolios Claims on retail portfolios

| Original Exposure | CRM Benefit        | Net Amount |
|-------------------|--------------------|------------|
|                   | Rupees in thousand | S          |
| 12,079,580        | 382,932            | 11,696,648 |
| 1,230,736         | 188,690            | 1,042,046  |

# 40.1.1.10 Credit Risk: Disclosures with respect to securitization - Basel II Specific Not applicable

#### 40.1.1.11 Equity position risk in the banking book-Basel II Specific

The Bank makes investment in various products/instruments for supporting business activities of the bank and generating revenue in short term or relatively short term tenure. No strategic Investments have been made with the intention to hold it for a longer term.

#### **Classification of equity investments**

Bank classifies its equity investment portfolio in accordance with the directives of SBP as follows:

- -Held for trading Investments
- Available for sale Investments

Some of the above mentioned investments are listed and traded in public through stock exchanges, while other investments are unlisted. **Policies, valuation and accounting of equity investments** 

These are given in Note 6.1 & Note 7.3 and 20.1.

**Composition of equity investments** 

| Held for trac     | ding (HFT) | Available fo      | r sale (AFS)      |

PAKISTAN BRANCHES

#### **Gain on Investments**

During the year, gain amounting of Rs. 5,603 (In thousands) have been realized on sale of equity investments which have been credited to profit and loss account. The unrealized loss on AFS investments is recognized in balance sheet while unrealized loss on HFT investments is recognized through profit and loss account as disclosed in note 10.1.

#### 40.2 Market risk

Market risk is the risk of losses in on- and off-balance sheet positions of the Bank due to movement in market prices, such as profit rates, equity prices and exchange rates.

The basic objective of effective market risk management is to minimize the risk of losses resulting from adverse movements in these prices. This is achieved by setting instrument-specific exposure limits, counterparty limits and stop loss limits etc. Furthermore, policies are in place to monitor transactions that result in excess over limits. All these activities are performed in line with the Risk Management Policies and Procedures Manual. The quarterly market risk review assesses the position of Bank portfolios with regard to various market risks, and identifies key risk areas and remedial measures.

#### 40.2.1 Foreign exchange risk

Foreign exchange transactions carried out by the Bank as part of its overall banking activity exposes it to foreign exchange risk due to movement in exchange rates.

As a policy stance, all foreign currency exposures of the Bank are taken to execute customers' requirements and/or to square Bank's own position. No exposures are allowed purely for trading purposes. The policy also specifies permitted currencies in which the Bank can take exposure as well as the maximum tenure for foreign currency transactions. Limits have been set with regard to net open position, currency-wise holdings, transaction amounts and stop loss positions, to safeguard against adverse movements in exchange rates.

(Incorporated in Bahrain with limited liability)
PAKISTAN BRANCHES

Currency risk is the risk that the value of the financial instrument will fluctuate due to changes in foreign exchange rates. Hedging transactions are used to manage risk in other currencies.

Liabilities include head office capital account, (accumulated loss) / unremitted profit and deficit on revaluation of assets amounting to Rs. 2,365,782 thousands (2007: Rs. 2,444,753 thousands).

#### 40.2.2 Equity position risk

The Bank has exposure in stock market equities in its trading book, which gives rise to this risk due to movement in share prices.

The equity position risk of the Bank in the trading book revolves around the investment in listed shares/securities, duly approved by the Shari'ah Advisor. Limit for the maximum stock market exposure has been set by the Head Office, in order to monitor and manage the size of the risk taken by the Bank. Even within the approved limit, all decisions with regard to taking or selling off an investment is made with the approval of the Country Credit Committee.

#### 40.2.3 Yield / Profit Rate Risk in the Banking Book (IRRBB)-Basel II Specific

Return sensitive assets, liabilities and off-balance sheet items-repricing analysis is done by ALCO. ALCO also monitors and manages the yield rate risk and takes on exposure to the effects of fluctuations in the prevailing levels of profit rates on Bank's financial position and cash flows. Profit margin may increase as a result of such changes but may reduce or create losses in the event of unexpected movements.

Yield/Profit rate risk arises from the possibility that changes in profit rates will affect the value of financial instruments. Yield risk is the risk of decline in earnings due to adverse movement of the yield curve. The bank is exposed to both profit rate risk and yield risk as result of mismatches or gaps in the amounts of assets and liabilities and off-balance sheet instruments that mature or reprice in the given period. The bank manages this risk by matching the repricing of assets and liabilities through risk management strategies.

The position of on-balance sheet financial instruments other than deposits and investments is based on the earlier of the contractual repricing or maturity date and for off- balance sheet instrument is based on settlement dates, while the position of deposits and investments is based on maturity date.

Profit rate risk is the risk that the value of the financial instrument will fluctuate due to changes in the market profit rates.

# (Incorporated in Bahrain with limited liability) PAKISTAN BRANCHES

#### 40.3 Liquidity risk

41

This is the risk of loss due to the inability of the bank to meet its obligations without incurring large or unacceptable costs.

The mandate for continuous and effective liquidity management in the bank lies with the Asset and Liability Management Committee (ALCO). The asset and liability position, both in local and foreign currencies, is monitored on a daily basis, to assess the appropriateness of sources and application of funds, the adequacy of various reserve requirements, and to ensure Shari'ah compliance. In addition, liquidity risk reviews are prepared on a quarterly basis to assist the ALCO in its decision making process.

### 40.4 Operational Risk

This is the risk of losses resulting from inadequate or failed internal processes, people and systems, or from external

By its very nature, operational risk is inherent in all business activities of the Bank and hence its identification and management is not limited to a particular department/division. The operational manuals of each business activity identify key operational issues and define procedures to minimize the potential risks. Prudent and proactive operational risk management is achieved by adopting an integrated approach whereby all Bank personnel are responsible for identifying, evaluating, reporting and mitigating such risks inherent in their respective lines of activities, in accordance with their operational manuals. Furthermore, key oversight functions of the Bank such as Risk Management, Internal Audit and Compliance work in conjunction to ensure that operational policies and procedures are being observed in letter and spirit.

Like all modern-day institutions, the Bank relies heavily on computer systems to handle critical electronic data and to support its daily operations. The necessity of ensuring continuity in these IT-related operations is a source of considerable operational risk, which is mitigated through the development of a Disaster Recovery Plan (DRP). The DRP outlines standard operating procedures to be followed in case of an unforeseen disaster, interruption or breakdown in the IT systems of the bank, thereby ensuring continuity in Bank's business and in meeting customer needs. In addition, a Business Continuity Plan (BCP) is also in place to ensure rapid recovery and timely resumption of all critical business functions of the Bank following a wide-scale, regional disruption.

The Bank recognizes that the field of sophisticated and structured operational risk management is in a state of evolution. In line with the latest research and development in this area, the Bank has taken the initiative of adopting a more objective approach to operational risk management, based on actual loss events. This is envisaged to be accomplished through the identification of key risk indicators for all major business units of the Bank. Based on the actual incidents reported by the branches, an operational loss database is being maintained, which will ultimately assist in the quantification of operational risk.

### 40.4.1 Operational Risk-Disclosures Basel II Specific

Basic Indicator Approach (BIA) is used for Operational Risk under Basel II.

### 40.5 Shariah non-compliance risk

Shari'ah Non-compliance risk arises due to the lack of awareness amongst the staff while processing a particular transaction, which may result in reputational loss to the bank as well as reversal of income of the bank in respect of that

This risk is covered by ensuring that all Bank personnel have detailed and relevant knowledge of Shari'ah-related issues pertaining to their respective areas. This is accomplished through periodic training sessions and workshops conducted by the Shari'ah Advisor and his team. Furthermore, the Shari'ah Desk carries out frequent transaction and policy specific reviews to identify and rectify deviations, if any.

#### 41. GENERAL

- **41.1** Figures have been rounded off to the nearest thousand rupees, unless otherwise stated.
- 41.2 In general captions in respect of which there are no amounts, have not been reproduced in these accounts except in case of balance sheet and profit and loss account.
- **41.3** These financial statements were authorised for issue on 14 March, 2009.

### STATEMENT OF INTERNAL CONTROLS

It is the responsibility of the management to establish the sound system of internal controls. The prime objectives of these controls are effectiveness and efficiency of the operations, timeliness and reliability of financial and non-financial reporting, safe guarding and proper utilization of assets and adherence to the internal policies procedures and external regulatory statues.

The evaluation of internal control system is an on going process and management regularly reviews the system for improvement. Immediate and appropriate actions are taken to mitigate the risks which are inherent to the banking business operations keeping in mind the cost effectiveness of the controls implemented.

The internal controls are reviewed by the internal auditors as well as external auditors. Management is committed to respond on the recommendations for improvement in internal control system by prompt and effective implications. Management has established a well structured system of internal controls with segregation of duties and different level of authorities, roles and responsibilities.

The internal control system is effectively and efficiently implemented. However there are certain inherent limitations which hinder the smooth working of the system. It can therefore provide reasonable but no absolute assurance against material misstatement or loss.

In view of the above and based on supervision, management believes that the internal controls are in place and operation effectively for the year under review. During the year under review the manuals covering all the areas of banking operations is being implemented and are under continuous monitoring.

## **RISK MANAGEMENT FRAMEWORK**

The risk management framework of the Bank is focused on the timely identification, measurement, monitoring and management of various risks to which the Bank is exposed. This is governed by the risk Management Policy which has been duly approved by the Head Office. All key risks such as credit, market, operational, liquidity and country risks are comprehensively covered in the Policy, which provides guidance on their prudent management and mitigation. In addition, a dedicated Risk Management Department, equipped with the desired level of expertise, has the responsibility of assessing and monitoring the risk profile of the bank both at the portfolio as well as the transactional level.

For effective and objective monitoring of risk, various exposure limits have been incorporated in the framework in order to check undue concentrations and to encourage diversification. The bank has also developed and enhanced the capacity for internally assessing the creditworthiness of an exposure through separate risk ratings of customers as well as facilities.

Apart from the monitoring and management of risks under normal state of affairs, the bank also conducts periodic stress tests to assess the resilience of its credit, investment, foreign exchange portfolios and liquidity position under extreme market conditions.

The framework also recognizes and places due emphasis on the unique nature of risks pertaining to Islamic financial products and services, and ensures stringent Shari'ah compliance in all business activities of the Bank.

For mitigating the risks inherent in the various operational activities of the bank, specific policies and procedural manuals for all business activities have been implemented. Furthermore, policies and procedures relating to disaster recovery and business continuity are also in place to ensure rapid recovery and timely resumption of all critical business functions following a wide-scale, regional disruption.

As regards consumer banking, the bank places great importance on the pre as well as post disbursement risk issues relating to this area. In this regard, more comprehensive and elaborate policies and procedures have been formulated in view of the unique risk profile of consumer financing.

We believe that with the gradual but efficient implementation of the risk management framework and continuous efforts of the management, the overall risk management activities of the bank are getting in line with the guidelines issued by State Bank of Pakistan.
